Well No. 1-Mayfield is located 990 ft. from {N}{S} line and 2310 ft. from {E}{W} line of sec. 33

SE/4 33	20S 23E	N.M.P.
(¼ Sec. and Sec. No.)	(Twp.) (Range)	(Meridian)
Saladar-Yates	Eddy	New Mexico
(Field)	(County or Subdivision)	(State or Territory)

The elevation of the derrick floor above sea level is 320 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On March 20, 1957, 143' of 7" casing was run at 145' and cemented with 10 sacks, water shut off was complete. Hole was then deepened to 699' where drill pipe broke 90' above bit. Hole has been idle since 4-9-57, after fishing operations failed to remove stuck pipe. It is planned to use special securing equipment on attempt to retrieve pipe, which is now being obtained, and is the cause for delay Hole is presently shut in pending fishing attempts.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
