Re: George D. Riggs #1 - Malco
1650' FS & 990' FW of Section
33, T20S, R28E,
Eddy County, New Mexico

Gentlemen:

Would you please advise me if the above well is still producing? If not furnish me with date of plugging.

This well was completed in 1956 for approximately 10 BOPD at a total depth of 6906' and was in either the Salandar or Cedar Hills Field.

Your cooperation and promptness in this request will be appreciated.

Very truly your,

MONSANTO COMPANY

Harold R. Hart
Landman

HRH:gw

According to our records this well is still producing. (see attached production report) However it was completed at a total depth of 690' not at 6906 as stated above.
