Figure 1 consists of two scatter plots. The left plot shows a positive correlation between the number of children (x-axis) and the number of parents (y-axis). The data points are scattered, but a clear upward trend is visible, with a regression line drawn through them. The right plot shows a negative correlation between the number of children (x-axis) and the number of parents (y-axis). The data points are scattered, but a clear downward trend is visible, with a regression line drawn through them.
