(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to plug and abandon this well. The 10" casing is set @ 245 and 8½" is set at 621. This well was plugged back from 925' to 720' with steel wool and cement to successfully shut off the water. We propose to circulate the hole with mud laden fluid and spot cement plug as follows:

720-570	70 sx	Class "C"
100-0	30 sx	Class "C"

We will install dry hole marker and prepare location for inspection.
