

- 1573
- 1578 100 spotted oil stained white, light pink to brown densely oolitic dolomite, trace porosity; trace anhydrite; trace gray sand.
- 1583 50 white to light pink oolitic lense dolomite; 30 saturated brown porous sand; 20 spotted saturated brown to white dolomitic sand; trace bentonite.
- 1589 20 saturated brown crystalline to oolitic slight to good porous dolomite; 75 light gray to white oolitic to densely crystalline dolomite; trace oil stained brown dolomitic sand, 5 green bentonite.
- 1592 30 drab white to gray slightly oil stained sand, fine (sand grain irregular-small to coarse, angular); 15 saturated white to brown crystalline porous dolomite; 15 white densely crystalline dolomite; 40 saturated brown slightly sandy porous dolomite; 5 gray and green shale.
- 1597 30 drab white to gray oil stained sand, fine; 15 saturated white to brown densely crystalline dolomite, trace coarse porosity; 40 saturated brown sandy porous dolomite; 5 gray and green shale; trace green bentonite.
- 1600 20 saturated white crystalline porous dolomite, to oil stained white to light brown crystalline dolomite.
- 1604 100 saturated white to brown slightly coarsely porous dolomite; trace bentonite.
- 1610 60 saturated white to brown coarsely porous dolomite; 10 saturated brown granularly crystalline dolomite, trace porosity; 10 saturated brown porous slightly sandy, dolomitic sand, to oil stained gray shaley, dolomitic sand; trace frosted quartz grains.
- 1615 40 saturated brown crystalline porous dolomite; 30 gray to slightly oil stained brown dolomite, 30 gray shale; 30 gray to slightly oil stained brown dolomitic sand.
