

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

MAY 14 1937

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Title

Guy Shepard

The first of these is the fact that the majority of the specimens are from the same locality, and that the majority of the specimens are from the same individual. This is a very unusual situation, and it is one which has not been reported before. It is therefore of great interest to the reader, and it is hoped that the following account will be of some use to him.

*THE SPECIMENS*

The specimens are all from the same locality, and they are all from the same individual. They are all from the same locality, and they are all from the same individual. They are all from the same locality, and they are all from the same individual.

*THE SPECIMENS*

The specimens are all from the same locality, and they are all from the same individual.

The specimens are all from the same locality, and they are all from the same individual. They are all from the same locality, and they are all from the same individual.
