

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approvals are obtained. See additional instructions in the Rules and Regulations of the Commission.

Place Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

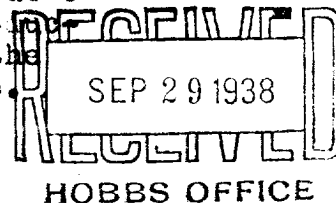

DUPLICATE

Following is a notice of intention to do certain work as described below at the Neil H. Wills et al
State "A" Well No. 2-A in SE 1 NE 1
Company or Operator Lease
of Sec. 19, T. 20, R. 30, N. M. P. M., Barber Field,
County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

At total depth 1650, the hole was corrected to 1656 by sand line. To shut off bottom hole water from 1653-56, a 6' wood plug followed with 10# of lead wool was placed on bottom, plugging back the hole to 1650'. Tubing was run to total depth and a production test is now being made. Over the past 4 days, the well has averaged about 10 barrels of oil per day, plus about 3 barrels of water daily. If the well continues production at this rate it will be completed--otherwise the hole will be completely plugged and casing salvage.

SEP 29 1938
