Mr. H. C. Wells  
3501 Pershing Drive  
El Paso, Texas

Dear Sir:

This is in regard to the Sullivan-Rundle Well No. 1, in the NW 1/4, Sec. 19, T. 20 N., R. 30 E. According to the records of the State Land Office this well is on your state lease No. B-2230.

I am informed that this well is in bad condition and it is very possible that water is leaking through it into the adjacent potash bearing formations. Obviously this is a serious situation if true and one that should be remedied if at all possible.

It may be that arrangements could be made for the pulling of the pipe at this well and the proper plugging of the well for the salvage value of the pipe. If such an arrangement can be made, would it meet with your approval?

Please let me hear from you in this matter at your early convenience.

Very truly yours,

EHW:F

H. H. Wells,  
State Geologist.
