March 13th, 1938.

Mr. H. C. Wells,
251 Pershing Drive,
El Paso, Texas.

Dear Sir:

On January 4th, I wrote you about the possible plugging of the Sullivan-Rundle Well No. 1 in the 20s-20e, or Sec. 19-20s-20e, but have had no reply to date. A copy of that letter is enclosed.

I am advised by R. F. J. Vesely that this well undoubtedly is leaking water into the Potash-bearing Formations and that it is very essential that it be plugged at the earliest possible time.

May I not hear from you in this connection at your earliest convenience.

Very truly yours,

H. H. Wells
State Geologist

EHV/K
Enc.
