Re: Corrected report of
plugging on Morris-
Hoover #2

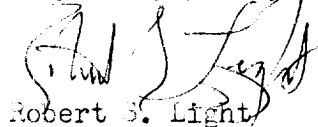

Attention: Mr. M. L. Armstrong

Gentlemen:

Enclosed are five copies each of form C-103 covering the actual plugging operations done on the Morris & Hoover #2 well, Barber Pool, Eddy County, New Mexico. Please remove the Dowell report sent in on the #1 Morris & Hoover well, from your file, change the well # to #2 and include it with the copies of C-103 submitted herewith.

I regret the error on our part in filing these reports on the wrong well and hope that this will clarify the situation satisfactorily.

Very truly yours,

Robert S. Light

RSI:pg

P.S.: We will remove on future reports of our C-115, this well which they are carrying under the status of U.
