Room 323
Carper Building
Artesia, New Mexico

Dear Sir:

Mr. J. R. Watson, Production Superintendent for James H. Snowden Petroleum Company, has notified us that they intend to locate and drill an oil test located as follows: 1650 ft. from North line, 2310 ft. from West line, Section 32, T20S, R30E.

Due to the fact that this above indicated location by the James H. Snowden Petroleum Company does not jeopardize the conservation of potash ore, United States Potash Company Division of United States Borax & Chemical Corporation under OCC Order No. R111-A would not and does not object to the location and drilling of this indicated well.

Very truly yours,

Earl H. Miller
Resident Manager
