LOCATE WELL CORRECTLY

(over)

NEW 540 20 10 40 501

A blank sheet of white graph paper with a light gray grid pattern. The grid consists of small squares, approximately 1 cm by 1 cm. There are no margins or text on the page.

The above information was obtained from the files of the Department of the Interior, Bureau of Land Management, and is being furnished to you for your information.

Sincerely,
[Signature]

[illegible]

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of reworking, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "detracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.

HISTORY OF OIL OR GAS WELL.
