Well No. 1 is located 1650 ft. from S line and 2310 ft. from W line of sec. 22NE 1/4 SW 1/4 Sec. 22 21-S 24-E NM PM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)Indian Hills (Perm) Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)The elevation of the derrick floor above sea level is 3690 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to deepen to 10,000', to test the (Morrow) Sand. If commercial well in the (Morrow) Sand, will run 5 1/2" 15.50# casing to approximate T.D. cemented with sufficient cement.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
