Attention: Mr. R. L. Stamets

Gentlemen:

Enclosed are three copies of a corrected Form C-122 for Ralph Lowe's Indian Basin "B" (Morrow) Well No. 1 K, 14-21-23, along with the returned copy of the previous report.

Although the first point has been shifted on the corrected report, the point alignment is still not good. The absolute potential can conceivably be any volume from 20 to 40 MMCFPD. For this reason the curve was drawn in such a manner that the potential remains at 21,800 MCFPD. This, in my opinion, is a realistic potential.

It is sincerely hoped all errors have been corrected. If not, please return to the above address.

Yours truly,

Archie P. Farr
