Re; Packer Leakage Test
Indian Basin "B" Com #1

Gentlemen:

This office has received your memo concerning the status of the subject well. Even though this well is presently shut in a packer leakage test must still be run to show segregation between the two zones.

This test should be run at your earliest convenience and this office notified in time to witness test.

If you have any questions concerning this matter, please feel free to contact me at this office.

Sincerely,

Mike Williams
Mike Williams
Oil & Gas Inspector
