Dear Mr. Hanagan:

We have given due consideration to your request of August 4, 1964, to discontinue the monthly deadweight tests on the Hanagan Petroleum Corporation #1-D Tepee State, Section 32, Township 21 South, Range 24 East, Eddy County, New Mexico. The Commission has certainly been pleased with the results of the tests taken through July, and on the basis of this information, we are reducing the number of remaining tests from six to three.

Because of the importance of this matter we do not feel that the tests should be discontinued at this time and will require that tests be submitted in September and November of 1964 and January, 1965.

Please continue to notify other operators and the Commission Office at Artesia of the test dates so that the tests may be witnessed.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
