13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Marathon Oil Co. is requesting renewal of the TA status of this well. The casing integrity was tested on 8/17/99 and TA status was originally approved 8/24/94. A copy of the 8/17/99 integrity test chart, witnessed by J. D. Whitlock, is included. Marathon plans to drillout the CIBP, which is set @ 7810', perforate additional pay in the Upper Penn interval, stimulate the well and run a sub pump. This work was scheduled for the 2nd quarter of 1999, however the workover schedule has been changed. It is not known at this time, whether this work will be done by 4th quarter 1999 or will be put off until sometime in the year 2000. Please extend the TA status until September 1, 2000.
