(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This is a dual well producing from Upper Penn and Morrow zones.
We wish to temporary abandon the Upper Penn, perforations 7388' - 7503',
which is depleted. This zone is confined to tubing by packers and
Otis crossover.

Morrow zone perforations 9226' - 9455' will continue to be flowed through
annulus as it has been in the past.

18. I hereby certify that the foregoing is true and correct
