SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

FORM APPROVED
Budget Bureau No. 1004-0135
Expires November 30 2000

5. Lease Serial No.

LC-063245-A

6. If Indian, Allottee or Tribe Name

7. If Unit or CA/Agreement, Name and/or No.
SW-290

8. Well Name and No.
INDIAN FEDERAL GAS
COM #1

9. API Well No.
30-015-10355

10. Field and Pool, or Exploratory Area
INDIAN BASIN MORROW

11. County or Parish, State

DATED 11/18/98

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

On 11/18/98 I sent form 3160-5 requesting approval for off lease measurement, storage & sales, alternate measurement method, and commingling of the gas and liquid hydrocarbons from the lease shown above. There was an error in the manner of measuring liquid hydrocarbons. The production from this well goes into a 2-phase separator. The gas is metered and sent to the Indian Basin Gas Plant via pipeline as previously shown. The liquids, both water and liquid hydrocarbons, are sent to a storage tank on location where they are gauged and "color cut" and the strapping chart for the tank is used to calculate the daily production. The liquids are then truck hauled to the Indian Basin Gas Plant for further separation. The liquid hydrocarbons, after further processing, are sold through a LACT meter. After separation, the water is pumped into various water disposal wells per prior approvals. A corrected drawing of the facility is attached.
