13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Marathon Oil Company is going to test the Upper Penn formation in this well for approximately 2 weeks. The master valve will be closed, shutting off the Morrow formation and the annulus will be opened allowing the Upper Penn to produce up the casing. The production will be separated through the existing stack pack (2 phase separator). The liquids will be measured using the tank gauge and Colorcut and then truck hauled. The gas will be metered through the existing meter and then enter the loop line to be transported to the Indian Basin Gas Plant.

14. I hereby certify that the foregoing is true and correct.
