## SUNDRY NOTICES AND REPORTS ON WELLS

RECEIVED  
AUG 15 1963  
U.S. GEOLOGICAL SURVEY  
ARTESIA, N. M.

NOTICE OF INTENTION TO DRILL	SUBSEQUENT REPORT OF WATER SHUT-OFF
NOTICE OF INTENTION TO CHANGE PLANS	SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING
NOTICE OF INTENTION TO TEST WATER SHUT-OFF	SUBSEQUENT REPORT OF ALTERING CASING
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL	SUBSEQUENT REPORT OF RE-DRILLING OR REPAIR
NOTICE OF INTENTION TO SHOOT OR ACIDIZE	SUBSEQUENT REPORT OF ABANDONMENT
NOTICE OF INTENTION TO PULL OR ALTER CASING	SUPPLEMENTARY WELL HISTORY
NOTICE OF INTENTION TO ABANDON WELL	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

August 8, 1963

**Federal "13" Lease**  
Well No. **1-6** is located **400** ft. from **[N]** line and **400** ft. from **[W]** line of sec. **6**  
**NE 1/4 of sec 6** **22-S** **24-E** **100W**  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
**Wilcox** **Edley** **New Mexico**  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

August 6, 1963 - Ran 622' of 13" OD 464 EW casing. Set at 626'. Cemented with 200 sacks by Halliburton. Plug down at 7:20 p.m., August 6, 1963. Cement did not circulate.

August 7, 1963 - Ran 1" pipe in annular space to determine top of cement. Could not get below 73' with 1" pipe. As per verbal conversation between Ram Aston with John H. Trigg and R. L. Bachman with the U.S.G.S., we ran temperature survey and located top of cement at 400'.

As per verbal agreement between Gene A. Snow with John H. Trigg and R. L. Bachman and James Knapp with the U.S.G.S., it was decided to drill ahead at the present status quo. Prior to running intermediate casing, 13" casing will be cut and removed and cement circulated on intermediate.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
