13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Marathon Oil Company is requesting renewal of the Temporary Abandonment Status of this well. The well was tested for casing integrity 9-8-92. The test proved integrity and was witnessed by Mr. D. Whitlock of the BLM & Mr. Gary Williams of the NMOCD. The well has potential production in the lower wellbore which may be tested by 12-96. If no commercial production is found, the well may be utilized as a water disposal well. As development continues in the Indian Basin and Dagger Draw areas, more disposal capacity may be required.
