17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well has a total depth of 80'. 5 1/2" casing is set at 70' in an 8" hole with cement from top to bottom. The well is open hole from 70'-80'. We propose to plug the well as follows:

1. Rig up pulling unit.
2. Pull tubing. (2 joints)
3. Remove submersible pump.
4. Run tubing with extra joint and tag bottom @ 80'.
5. Circulate cement in 5 1/2" casing from bottom to top. (Approx. 15 sxs. Class "C")
6. Pull tubing and lay down.
7. Top hole off with cement.
8. Erect surface marker and/or clean and level location as required by Bureau of Land Management and Bureau of Reclamation.

18. I hereby certify that the foregoing is true and correct
