13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Marathon Oil Company is requesting an extension of the TA status of this well. A casing integrity test was run on September 9, 1999. The casing was pressured up to 515 psi. After 30 minutes the pressure reading was 505 psi. The chart is attached. This well is in an area that Marathon is currently developing, and it has Indian Basin Upper Penn Associated potential. If no economic reserves are found, the well may have utility as a disposal well as the development of the area continues.
