☒ Other Change in

☐ Change Plans

☐ Plug and Abandon

☐ Temporarily Abandon

Equipment

☐ Convert to Injection

☐ Plug Back

☐ Water Disposal

13. Describe Proposed or Coompleted Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Submitted to report the installation of a high-speed three stage compressor on this lease which is capable of moving 6.4 MMCFPD with 60 psi suction and 1100 psi discharge. This compressor replaces the Ajax 600 and Ajax 300 currently on the lease. Please note that no new surface was disturbed and that we are also installing an emergency flare which will be used to burn off gas if the compressor should go down.
