Re: Change in Transporter of  
Gas

Gentlemen:

Our Santa Fe office has directed us to obtain a change in gas transporter, on Form C-104, for all wells in the Indian Basin gas pools currently shown as connected to Southern Union Gas Company. The change is from Southern Union Gas Company to Delhi Gas Pipeline Corporation, the actual transporter of the gas. Therefore, please file Form C-104 reflecting this change for the following described wells:

HOC Federal Gas Com. #1-F, 13-22-23  
Smith Federal Gas Com. #1-F, 12-22-23  
Smith Federal #1-F, 11-22-23

*recd. 6-22-67*

Sections I, II, III and VI of Form C-104 must be filled out completely.

Failure to file Form C-104, as requested, may result in cancellation of allowable.

Very truly yours,

Oil Conservation Commission

Re: Pan American Pet. Corp. HOC Federal  
Gas Com No. 1 F 13-22-23, Indian  
Basin Upper Penn. Gas Pool

Gentlemen:

Commission Rules & Regulations require that each gas well in the state be tested within 60 days after connection to a gas transportation system or within 60 days following reconnection after a workover. In response to this rule, we requested that the operator test the subject well. However, Pan American has advised this office that they have been unable to complete a test of the well due to shut-down of the Indian Hills sweetening plant. As the submission of the test report is required in order to maintain the allowable of this well, we are requesting that your field representatives work with Pan American to facilitate its completion at the earliest possible time.

Please advise this office of your actions in this matter.

Very truly yours,

OIL CONSERVATION COMMISSION
