Re: Application for Administrative Approval,  
650.77-Acre Non-Standard Proration Unit  
Atlantic Richfield Pure Federal No. 1 Well  
Catclaw Draw Morrow Gas Pool  
2078' FS & 1892' FWL, Section 11, T-21S, R-25E  
Eddy County, New Mexico

Gentlemen:

Atlantic Richfield Company respectfully requests administrative approval under Rule 3, Order No. R-4157, of a 650.77-acre non-standard proration unit for the captioned well, said unit to comprise all of Section 11, Township 21 South, Range 25 East, Eddy County, New Mexico, as shown on the attached plat. In support of this request, Atlantic Richfield offers the following information:

1. The Pure-Federal No. 1 was completed 2-4-66 as a Morrow producer, and was subsequently placed in the Golden Eagle Morrow Gas Pool.
2. Golden Eagle Morrow Gas Pool was abolished by the N.M.O.C.C. in Case No. 4838, Order No. R-4421, effective 11-1-72, and the Catclaw Draw Morrow Gas Pool was extended to include the acreage formerly in Golden Eagle Pool.
3. The proposed unit consists of contiguous quarter-quarter sections lying wholly within a single governmental section.
4. The unorthodox size of the unit is necessitated by a variation in the legal subdivision of the United States Public Land Surveys.
5. A plat of the proposed unit showing offset well locations and ownership of adjoining acreage is attached. Also attached is an amended form C-102 describing the location of the well and the proposed unit.
6. All offset operators have been duly notified of intent to form a non-standard unit.

Very truly yours,

*V. M. Hollrah*
