5/11/01 - BLM received a report that there appeared to be a bullet hole in one tank and oil was leaking onto the ground. Paul Evans of BLM telephoned the operator and the operator immediately sent pumper to handle the situation. Holes were plugged with spiral tank plugs and a vacuum truck was called to recover oil on ground. Vacuum truck recovered approximately 10 bbls of oil and 25 bbls of water off ground.

Upon BLM agent recommendation, premediated affected area with manure and tilled in kenaf sarbent (a bio degradable oil absorbent).
