17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was shut-in and temporarily abandoned in September 1973 on account of decreased oil production and the need for a water disposal well. The lease is being held by production from Texas Oil & Gas Yates Federal No. 2 and other wells recently completed on this lease. It is proposed to hold this well for possible later use as a salt water disposal well, or return to production when the value of crude oil warrants.
