Dear Mr. Fasken:

Enclosed please find one copy of a corrected gas well potential test for the subject well. This test was forwarded to us by the U.S.G.S. All corrections are made in accordance with the new Commission "Manual For Back Pressure Testing of Natural Gas Wells" as published January, 1, 1966. This manual is available from our Santa Fe office. Please correct the test report and submit two signed copies to this office.

If there are any questions concerning this matter, do not hesitate to call upon me.

Very truly yours,
