Re: Change of operator  
for Big Eddy #17

Dear Sir:

Attached please find New Mexico Oil Conservation Commission Form C-104 requesting change of operator on the above captioned well to Cities Service Oil Company.

Our present plan is to operate this well during the testing period and return the operations to Perry R. Bass as soon as we feel the production has stabilized.

This well has not been assigned to a pool and is being tested as a Wildcat from the Strawn formation.

Yours truly,

CITIES SERVICE OIL COMPANY

E. Y. Wilder  
District Superintendent

EYW/CDR/bg
