Re: St. CJ Com. #1
Sec. 24-20S-26E
Wildcat Wolfcamp

Gentlemen:

Remedial work was done on this well in November 1980 and the well was plugged back. It has flowed a little oil since the workover but we have been unable to get a multi point back pressure test. We anticipate doing more work on the well in the future.

Very truly yours,

Carolyn Orris
Production Clerk
