If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to re-enter this dry hole drilled by Getty Oil Company to 8020' which Getty plugged 1/28/68. We propose to test the Morrow around 11,050'. We plan to begin drilling about September 5, 1973. We Expect to complete the well in the Morrow as a simple gas well.

The New Mexico Conservation Commission approved this unorthodox location with ORDER NO. R-4618 issued August 23, 1973.
