Gentlemen:

We herewith acknowledge receipt of Commission Form C-104, Request for Allowable and a tabulation of the deviation tests on the subject well.

However, since this is a shut-in gas well, said C-104 will not be approved until you have designated a gas transporter and we have received a Notice of Connection from said transporter.

Further, we are returning the tabulation of deviation tests in order that you may have it notarized as required by Rule 111.

If you have any questions concerning this matter please do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION
