☐ Dispose Water

(Note: Report results of immediate completion, no Well Completion or Recommendation Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is permanently drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In reference to the BLM notice of 12-31-91, #NM-067-92-DW-113 concerning NTL-2B requiring approval of a leak detection system and the buried tanks we are requesting approval of the following remedial work:

- Upon approval we intend to install a 3'x3' fiberglass tank inside the existing cement sump. Any leaks will be detected between the outside of the fiberglass tank and inside the cement sump.
- Upon approval we intend to dig up the buried fiberglass tanks and install them above ground. These tanks are approximately 3-1/2' x 4'.

As soon as approval is obtained we will notify the BLM before we begin the remedial work for their inspection.

14. I hereby certify that the foregoing is true and correct
