13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

In reference to Notice of Incidents of Noncompliance #99-DW-139:

A casing integrity test was performed on 2/23/99 which indicated that there is a casing leak in this well. Marathon Oil Company plans to run a downhole video camera to pinpoint the position and severity of the leak. If the leak can be repaired, we will pull the casing and repair the leak. We will then resume producing this well. If it is determined that the casing cannot be repaired, a plan for permanent abandonment will be submitted and the well will be plugged.
