Re: Test Allowable Spring Unit  
#4, Sec. 3-21S-25E, Eddy  
County, New Mexico

Dear Sir:

We have been testing the above captioned well in order to submit our completion forms. We have accumulated approximately 140 barrels of distillant and it is evaporating at a fast rate. We request that a test allowable be granted in order for us to sell this distillant before all of it evaporates.

Attached is a C-104 that does not have the test data completed. It is being sent only to designate the Transporter. We will send in all other completion forms in as soon as possible.

If special permission is granted to run the distillant please call Mr. Cliff Robertson, collect, at 393-2177, Hobbs, New Mexico.

Yours very truly,

CITIES SERVICE OIL COMPANY

E. Y. Wilder
