OTHER Progress Report ☐

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It is proposed to drill subject well to an approximate depth of 12,100 feet in order to check the Morrow zone. In the event of commercial production 7" casing will be set at total depth and cemented with sufficient cement to cover the Morrow zone. The same casing program will be used that was filed for this well on Sept. 16, 1971

We are still drilling with cable tools and at this time we have reached a depth of approximately 3500'.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Heanitha L. Jones TITLE Agent DATE June 29, 1972
