Re: Bottom Hole Pressure Test ✓  
Form C-124  
Helbing Federal #1  
Indian Basin (Upper Penn.) Field

Dear Sir:

We are required to run a bottom hole pressure test on the above captioned well during the month of August. During April we had the well shut-in, and at that time ran a bottom hole pressure survey.

We request that the completed form C-124 be accepted in lieu of the August survey. This would eliminate down time in August and the additional expense of another BHP survey.

Thank you.

Sincerely,

Tom Myers  
Production Engineer
