Re: McMinn State #1-K,  
Section 18-21S-26E  
Eddy County, New Mexico

Dear Mr. Mahony:

We are returning the enclosed plats on the subject well for additional information.

According to our records there is a tract of Federal land in Section 18 that must be communitized with the State land to form a 640 acre spacing unit.

When more than one lease is dedicated to a well, each must be outlined and the ownership thereof identified both as to working interest and royalty.

Further, they must be consolidated by communitization, etc. prior to producing said well.

Very truly yours,

OIL CONSERVATION COMMISSION
