RE: Catclaw Draw Unit #5  
SW NE Section 25-T21S-R25E

Dear Mr. Lara:

Enclosed please find Form 3160-5 (Sundry Notices and Reports on Wells) for the above captioned well. Hallwood plans to re-evaluate this well for possible future SWD use, as the well has good casing integrity (tested to 1225 psi).

If you have further questions, please feel free to contact me at (303) 850-6257.

Sincerely,

**HALLWOOD PETROLEUM, INC.**
