

MULTI-POINT SURFACE USE AND OPERATIONS PLAN  
ABO PETROLEUM CORPORATION  
Lario Federal #1  
Section 20-T20S-R27E  
Eddy County, New Mexico

ROSWELL, NEW MEXICO

This plan is submitted with Form 9-331C, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. EXISTING ROADS.

Exhibit A is a portion of a BIM map showing the well and roads in the vicinity of the proposed reentry. The existing wellsite is located approximately 7 miles southeast of Lakewood, New Mexico and the access route to the location is indicated in red.

DIRECTIONS:

1. Go south from Lakewood for 7 miles on County Road #381.
2. Turn south (right) and go for .6 of a mile to location.

2. PLANNED ACCESS ROAD.

A. No new road is needed.

3. LOCATION OF EXISTING WELL.

A. There is no drilling activity within a one-mile radius of the wellsite.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES.

A. There are no production facilities on this lease at the present time.

B. In the event that the well is productive, the necessary production facilities will be installed on the drilling pad. If the well is productive oil, a gas or diesel self-contained unit will be used to provide the necessary power. No power will be required if the well is productive gas.
