Dear Mr. Norton,

I am returning forms C-101 & C-102s, requesting to plug-back to the Delaware, unapproved. Please refer to the correct procedure in filling out forms by referring to the Oil Conservation Division's Rule Book.

In filling out form C-102, rule 1102 requires that an operator show the calculated dedicated acreage be shown in item (12) of the proposed formation and outline on the plat the acreage to be dedicated.

In filling out your C-101, please be more descriptive in your intent to plug back to the Delaware, such as describing **in detail** where you intend to set plugs, use of BOPs, proposed perfs, etc., etc, etc.

If you have access to the internet, we have OCD's rules and regulations available on our web-site, the address is EMNRD.state.nm.us/ or you may obtain a hard copy by calling Florene Davidson at 505-827-7133.

If you have any questions regarding this matter, please feel free call.

Yours Truly,

Bryan G. Arrant
