ARTESIA, OFFICE

RE: Burton Flat Unit No. 3
Strawn Performance
3-21-27

Gentlemen:

In accordance with Commission Order R-4516, Monsanto Company submits the following production history of the Strawn reservoir in Burton Flat No. 3:

	BBLs. <u>CONDENSATE</u>	<u>GAS SALES - MCF</u> <u>SOUTHERN UNION</u>	<u>TRANSWESTERN</u>	<u>TOTAL</u>	<u>GOR</u>
July, 1973	47	1281	0	1281	27,255
August, 1973	785	1202	18,801	20,003	25,481

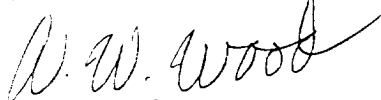

Limited gas sales started on July 12, 1973 to Southern Union. Trans-western sales started on August 13, 1973.

Attached is a copy of the A.S.T.M. Distillation results on this 60.1° A.P.I. condensate. The high gravity indicates a condensate that is normally associated with a gas reservoir.

Monsanto Company respectfully requests that this reservoir be considered and produced as a gas reservoir.

Yours very truly,

MONSANTO COMPANY

A. W. Wood
District Production Manager
