Re: JCW State Com.
#1-C-2-20-28
Eddy County, N. M.

Gentlemen:

We are returning the enclosed Form C-103 on the subject well for additional information.

Please show the footage of each weight of 8-5/8" casing, and send a copy of the temperature survey.

Further, on Form C-101 Application for Permit to Drill, your proposed casing and cementing program was 8-5/8"-@ 3000 w/600 sacks of cement with top of cement at the base of salt.

According to the enclosed Form C-103, no attempt was made to cement the 8-5/8" as proposed and approved on Form C-101. Please advise this office as to your reasons for changing the program and what your plans are for the additional cementing to comply with the approved program.

Sincerely yours,

W. A. Gressett
Supervisor, District II
