Work performed in September, 1976.

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1703.

As per request dated 8-25-76, did not perform plugging and recompleting as requested. Decided to continue "Strawn" production only until depleted before recompleting well in other zones of interest.

Work performed: Installed "Blanking Plug" in Baker on/off tool, tested same, OK, removed tubing, sliding sleeve, blast joints, installed tubing w/Model R Packer @ 9,956', cleaned "Strawn" w/500 gal. 15% NE acid and 80,000 SFC nitrogen, put well on production through tubing as single completion.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
