

NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

RECEIVED
Adopted
14-65

SEP 10 1973

O. C. C.
ARTESIA, OFFICE

I, R. N. Magee, being of lawful age and having full
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by Gulf Oil Corporation in the capacity of
Maintenance Foreman, that on June 27, 19 73

I personally supervised the setting of a Otis XLB
Make & type of packer

in Gulf Oil Corporation's Cerf-Federal,
Operator of well *Lease name* 27-E

Well no. 1 located in the Burton Flat (Unit C, 10, 21-S, field,

Eddy county, state of New Mexico, at a subsurface depth of

10,948' feet, said depth measurement having been furnished me by

wire line measurement;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

R. N. Magee
