219 Mid-America Building
Midland, Texas 79701

Dear Mr. Manulik:

U. S. Potash and Chemical Company has been acquired by Teledyne, Inc., and is being operated as Teledyne Potash. Your letter of January 8, 1973, to Mr. Earl Miller has been forwarded to me for reply.

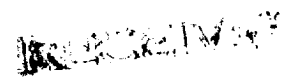

We have no objections to your planned drilling in Section 29, Township 20 South, Range 30 East, Eddy County, New Mexico, provided that all work is done in accordance with the criteria established in Order R-111A.

Very truly yours,

W. N. Stanley
Vice President of Operations
