Gentlemen:

On October 1, 1979, the above captioned well was disconnected from El Paso Natural Gas Company's system and switched to Transwestern Pipeline Co.'s system under exchange agreement. This well was reconnected and turned on into El Paso's system on October 6, 1979 due to Transwestern's compressor failure.

This well was disconnected from El Paso Natural Gas Company's system and switched back to Transwestern Pipeline Company's system on November 7, 1979 after Transwestern's compressor was repaired.

Yours truly,

FERMIAN DIVISION DISPATCHING DEPARTMENT

Travis R. Elliott
