

NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

RECEIVED

AUG 31 1973

O. C. C.  
ARTESIA, OFFICE

I, Leroy Collins, being of lawful age and having full  
Name of party making report  
knowledge of the facts hereinbelow set out do state:

That I am employed by Coquina Oil Corporation in the capacity of Foreman, that on July 25, 19 73

I personally supervised the setting of a Otis RDH 7" x 2 7/8" x 1 1/2"  
Make & type of packer  
in Coquina Oil Corporation, Yates State,  
Operator of well Lease name

Well no. 1 located in the Burton Flat (Morrow) field,  
Eddy county, state of New Mexico, at a subsurface depth of  
10,213' feet, said depth measurement having been furnished me by  
Vann Tool Company;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

(Signature) (Leroy Collins)
